ABOUT OUR **FT-FS04**

The FT-FS04 is the largest model that we offer in our series, offering exceptional capacity and performance for demanding material handling applications. As with all EMF Flowtech magnetic feeders, it is supplied complete with a versatile controller suitable for the local South African market to operate at 220 Volt 50 Hz power supply.

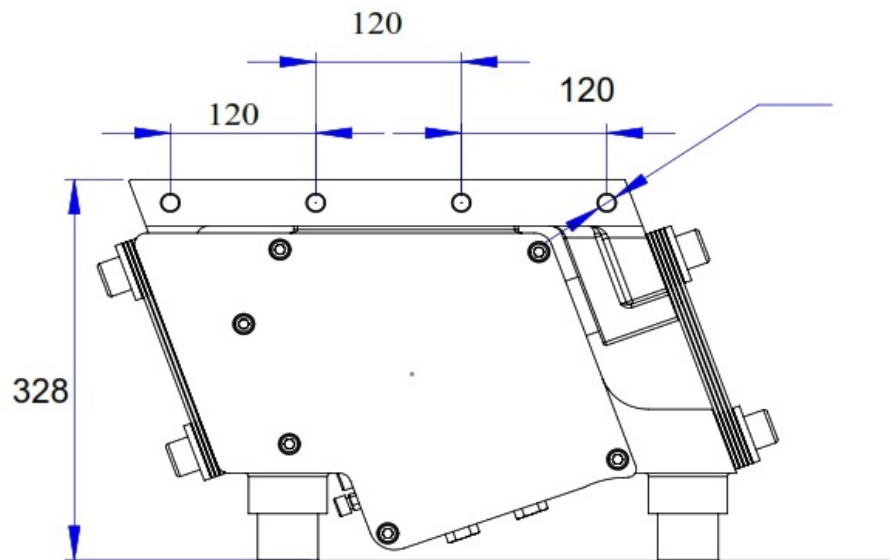

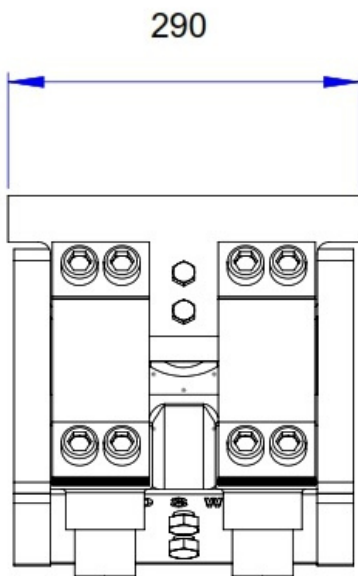

This model offers a delivery capacity of 0.1-20 tons per hour (depending on material characteristics), making it ideal for high-capacity applications. The feeder drive weighs 120kg and is capable of handling a maximum trough weight of 50kg. The FT-FS04 is a heavy-duty solution suitable for food, minerals, and bulk material handling industries. Its durability and performance make it a reliable choice for demanding environments.
